*Standard Guarantee*  
OF  
AMERICAN SHORTHORN BREEDERS  
ASSOCIATION

1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
2. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
4. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
5. All animals are sold to comply with the laws regulating Tuberculosis and Bangs Disease of the state or country into which they may be shipped.
6. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females, showing names and record numbers of sire and dam, as well as service date.
7. Shipment will be made as soon as possible after the close of the sale, but at purchaser's risk of loss or injury after animal is bid off. Where cattle are sold at private treaty the above terms should apply as well as for sale at auction.

All animals sold in this Sale will be backed by the above Standard Guarantee.

As a safeguard to prospective buyers, every animal has successfully passed a clean abortion blood test within 30 days prior to the sale, or will have Certificates of Bangs Calfhood Vaccination, and those that are not from Accredited herds have passed a clean Tuberculin test within the same period. Health certificates will be provided with each lot sold.

FEARLESS MASTERSTROKE - is as good a bull as we have ever produced. The first four calves produced by Marelbar Fearless sold for an average over \$1000, and this is the bull we held back one year for herd bull insurance. We have several heifers safe in calf to his service. He was first prize Junior Yearling last year at Ogden and San Francisco. This year he has been Grand Champion at Great Falls, Billings and Casper, Wyo. fairs.

EVERLEE VICTORY 2D - We are proud to produce a bull of this type. His sire, noted grand-sire, dam and her sire are proof enough to insure the potency of this calf as an outstanding herd sire prospect. He is the right type, color and breeding, with a near perfect head and extremely low-set, evenly balanced, closely coupled, with lots of bone, but must be seen to be appreciated.

PRINCE WILLIAM A - is a very dark roan bull with grand head, level lines, with thickness and mellow fleshing. He is about the last bull we will offer by Prince William - the imported sire that has done so well for us. His dam is a dark roan of double Mercury breeding and was top-selling heifer in the Clyde Palmer sale at \$1,000.

# Good Bulls For Greater Progress

Investing in an outstanding purebred Shorthorn bull in the best way to progress in the beef cattle business. It is far cheaper to breed deep middles and naturally thick bodies on calves than to feed them on . . . and if a calf has not been given the right heritage no amount of feeding and handling will ever develop it into a top animal.

A good Shorthorn bull will raise the standard of the calves from just average cow herds immediately . . . and owners of choice cow herds cannot afford to invest in a bull that doesn't give all the evidence of having the ability to sire calves equal or superior to their dams.

The bulls offered in this sale are just the type to lead the progress of the breed in the future decade.

Millhills Yesteryear also sired Crieffvechter Beacon, imported for Maxwellton Farms and sold at \$6000. The dam of this good bull is one of the top cows in the Dron herd and comes of their best family.

# 1949 International Grand Champion Bull

Killearn Max Juggler, sired by Killearn Max 5th, was Grand Champion Bull at the American Royal National Shorthorn Show held in Kansas City, Mo; at the Eastern National Live Stock Show, Baltimore, Maryland and at the International Live Stock Show, Chicago--owned and exhibited by Clausen Bros., Spencer, Iowa.

Not shown until he was a two-year-old, this Claude Gallinger, (Tofield, Alberta, Canada) bred son of Killearn Max 5th, under Clausen tutelage, now proudly wears the 1949 Champion Bull award banners. This burly-headed, thick, heavy-quartered individual carries well these honors, and to add further to his brilliant record he was awarded the British Challenger Cup as the best Shorthorn exhibited at the 1949 International.

Killearn Max Juggler was one of the most popular champion bulls that has appeared on the tanbark over the country. He walked well, stood on four, strong-boned legs that were placed on his four corners. He was smooth, massive, thick and possessed a masculine, breedy crest and head. He was declared Grand Champion everywhere shown.

EUREKA VALIANT HEIR - is out of the same dam as Eureka Upright, the bull that sold for \$1000. in the 1949 Congress to S.W. & H.W. Pringnitz. He is solid red and should develop into a real herd bull.

## The Ideal Type Shorthorn Bull

For over two centuries, Shorthorns have competed with all comers as the ideal beef type. The ideal Shorthorn bull is thick, blocky, close to the ground, with greater scale at any given age than any other beef breed, straight in his top, bottom and sidelines, close-

coupled, carrying even width from end to end. He has a head showing marked breed and sex character with neck short and thick, neatly joined and shoulders smoothly blended into the body. His chest is wide and full, heart girth broad and deep, crops full, ribs widely sprung, loin thick and wide, hips neatly laid in with smooth rump and tail head, and twist deep. His horns are short, light-colored and glossy. He has a good coat of glossy hair and the best disposition of all beef breeds.

**BUY IN THE PURPLE** for these same good blocky qualities that help bring and maintain uniformity in your herd, and with qualities to go on procreating more of these good modern type Shorthorns.

KA DEL SUPREME LEADER - as his name indicates, is an infusion of Calrossie Supreme and Edellyn Royal Leader breeding. His sire was Res. Ch. at the 1947 American Royal and without doubt is the top son of Calrossie Supreme in service in the U.S.A. The dam of this calf is by M.F. Royal Leader, a direct son of Edellyn Royal Leader, and she is a three-quarters sister to the 1946 Congress Champion bull. This bull is short-legged, carries his thick body clear back through wonderful rear quarters. He was Grand Champion of the 1950 All Iowa Fair.

# Shorthorn Steers Excel

These prime Shorthorn steers established a record for the greatest gains ever made in the Ralston-Purina Experiments, averaging on the 322 day feeding test 2.21 pounds per day gain, as compared with 1.95 average gain of the other two beef breeds.

A quarter of a pound advantage per day equals over 80 pounds per animal for this particular feeding period. All carcasses graded U.S. prime. Performances of this nature are responsible for the slogan: "Shorthorns . . . . best in every WEIGH."

EDELLYN PLATOON LEADER - is a full brother to Edellyn Squadron Leader, famous Nelson trophy winner and now one of Edellyn's most promising sires. His dam, Edellyn Dorothy 21st, is the best female ever bred at Edellyn. She was either Grand Champion or Reserve Champion everywhere shown as a calf. We recommend this bull very highly and from the evidence that can be seen at Edellyn of his ancestry we know he will make quite a name for himself.

LOUADA BERTIE - is sired by an outstanding breeding bull, that is tremendously low-set, with a perfect masculine head, very thick and deep in the hind quarter and solid red. His calves with one exception this year have been solid reds, with great head character and bone, and this calf is no exception. He is a bit off age for showing and is not in real high fit, but we think there's a lot of herd sire in him.

## Shorthorn's Quiet, Lazy Disposition . . .

help produce more pounds of profitable gain and make for easy handling under all conditions on farm and range. Shorthorns have by far the best temperament of all beefbreeds. These females show the great placidity of disposition which, added to the ability to produce abundant milk, make Shorthorn females such excellent mothers.

# 1949 International Grand Champion Female

Golden Rule Luxury, a junior Yearling exhibited by Holz Brothers, Rippey, Iowa, was declared the Grand Champion Shorthorn female of the 1949 International in very strong competition. During the year this breedy-headed, thick, deep-bodied, smooth dark red daughter of imported Montgomery had been undefeated, and she was the 1949 National Shorthorn Show (held in connection with the American Royal Stock Show at Kansas City, Mo.) Grand Champion female. Holz Brothers showed the 1948 Grand Champion female at the International. Both winners were true beef matrons from stem to stern.

This well-balanced heifer with a lot of substance is the kind of heifer that wears Grand Championship honors well. As a junior calf she had been Grand Champion female at the Southwestern Stock Show, Fort Worth, Texas.

Golden Rule Luxury is a grand specimen of the breed and although she encountered tough competition wherever shown she was difficult to beat.

Remember, it takes champions to produce champions. A good place to look for source material is the 1950 International Shorthorn Congress Sale.

# Extra Weight Makes Bigger Returns...

in the cattle business. Demand for Shorthorn bulls for cross-breeding is the greatest in modern history BECAUSE THEY SIRE BIGGER CALVES - both purebred and crossbred. Modern records, showyard competition and practical experience by all seasoned cattlemen prove conclusively that bigger calves gain and weigh more at any age. They make MORE EFFICIENT, MORE ECONOMICAL, MORE PROFITABLE use of ALL FEEDS.

# Shorthorn For Greatest Returns

Concentrated agricultural production with modern legumes and forage crops enables a large herd of Shorthorns to thrive on a relatively small acreage with greater cash returns per acre on less labor. Greatest profits result from the most efficient conversion of grass and roughage into prime beef and an abundance of milk. Breed Shorthorns for greatest returns.

## *The Ideal Type Shorthorn Female*

A cow provides half the inheritance of every calf, so it is important that she be the best of type and bloodlines. The short-legged, heavy-fleshed, low-flanked, early maturing beef type Shorthorn female of today with her greater capacity for milk than cows of any

other beef breed, is a real triumph in scientific breeding. This ideal modern type Shorthorn female is smooth of flesh, near to the ground with plenty of style and impressive character, with the best of heads and impeccably attired in a fine quality coat. She represents the right combination of individuality with the best of bloodlines. And with all this she shows the capacity for plenty of milk so important in the development of rugged early maturing calves.

BUY IN THE PURPLE for cows like this for herd uniformity and for the best possible inheritance for your Shorthorn calves.

# Breed & Feed SHORTHORNS

*Best in Every* **WEIGH!**

Steers are the medium through which we compete with other breeds. In them all our prestige and claims for superior cattle are at stake. They are our proof to cattlemen and ranchers, to 4-H Club boys and girls, to Future Farmers, to men with wealth and to just everyday farmers that Shorthorns are the most desirable breed from all standpoints. A well conditioned steer at a show or on the market is a greater asset to the breed than an inferior bull sold to a farmer or a small breeder. You will find bulls in this

Congress sale that will sire the type of steers that will bring to you the great prestige attached to breeding and exhibiting a **GRAND CHAMPION STEER**.

# Try Our Service Without Charge

Cordially the American Shorthorn Breeders' Association invites you to become interested in producing Shorthorns on a profitably sound and constructive basis. We invite new breeders or prospective buyers to take advantage of our facilities for service. We are more than a registry association, we are here to cooperate with you in any way in solving your cattle problems or in locating and assembling the kind of Shorthorns you want----either one or a carload. This is done entirely free of charge. The advice of our experts is always available in gathering together a uniform herd for whatever branch of the cattle business you wish to enter----or in helping organize a local or state sale -- or a local or state Shorthorn organization.

If you are unable to attend the 1950 Congress send your buying orders for any animal in this catalog addressed personally to Clinton K. Tomson, Sec'y., American Shorthorn Breeders' Association, Union Stock Yards, Chicago 9, Ill. Give details as to what prices you expect to pay, second or third choices if you have them and include shipping instructions.

# Our Future Markets

The future of Shorthorns can never be doubted when foresighted fathers start their youngsters with a calf early in life. The gentle, easy-feeding, friendly propensities of the breed lend themselves admirably to such a pleasant and profitable association.

Here also is begun the basis of the 4-H or FFA project lessons which have been so fruitful of Shorthorn steer Grand Championships. Club work is so much more than a local project by a boy or girl for monetary gain and experience. It is the building of future citizens and leaders. Make it a point to see that at least

one promising boy or girl is given the benefit of a Shorthorn calf as a project during the coming year. Do your part to encourage building Shorthorn enthusiasm. . . . . help lay the foundation for a great future market for the breed.

BONNIE BUTTERCUP - is a very choice heifer from one of our best producing families. Her dam produced several outstanding bulls, including a Reserve Champion at the 1947 Iowa Royal Show and Sale; a second prize bull in the 1948 Royal show and Sale; as well as a second prize heifer at a recent Congress Show and Sale. The sire of this good heifer is an excellent breeding bull. VACCINATED FOR BANGS.

Shorthorns  
mature the  
earliest of all  
beef breeds.

Shorthorns  
give you  
more pounds  
of prime beef  
at less cost.
